OBJECTIVE

Aspiring data enthusiasts with a strong background in programming and an avid interest in data analysis and machine learning seek to pursue an MS in Data Science to refine skills, focusing on predictive modeling and data visualization, and subsequently contribute as a Data Scientist in a dynamic tech-driven environment.

ACADEMIC QUALIFICATION

- Bachelor of Technology in Computer Science and Engineering, Annamacharya institute of technology and sciences, Kadapa , Andhra Pradesh,CGPA: 7.6/10.0, Aug(2019)-May(2023)

ACADEMIC PROJECTS

Title: Credit Card Fraud Detection using State-of-the-Art Machine Learning and Deep Learning Algorithms [Annamacharya Institute of Technology and Sciences, Kadapa] January 2023 – May 2023

Team Size: Five **Role:** Front- End Developer **Summary/Description:**

To detect credit card fraud, including the accessibility of public data and imbalanced data. By using the latest technologies, like machine learning or deep learning algorithms, we can detect credit card fraud. □
To analyze the performance of the CNN model, apply different architectures of CNN layers

- To perform a relative analysis between ML & DL algorithms and propose CNN with a baseline model
- To assess the accuracy of datasets and measure accuracy
- Explored the practical application of ML algorithms to identify credit card thefts in the banking industry

CERTIFICATIONS/WORKSHOPS/ADDITIONAL COURSES

1) HTML- Code with Harry (April 2021-May 2021)

2) CSS- geeks for geeks (June 2021-July 2021)
